

# Educational Packs

Many children in Africa are denied an education simply because they lack the basic materials required to attend school. Pens and pencils are often beyond the means of the poorest families.

At Christian Hope International we are including on our containers primary and senior level educational packs, containing all the basic materials required for a child starting a new school year.

Would your Church or group to join with us in meeting this need, by collecting the equipment shown below as complete packs, individual items or raising funds to enable us to purchase these items. Each complete pack costs just £5. Can you 'Help to bring Hope' through education? In addition to the items shown we will add a copy of one of the Gospels to every pack, giving the opportunity for each child to learn the real message of 'Hope'.

We are able to source the Solar Calculators for £2 each, so should you wish to include a donation towards the cost of a calculator or help towards the cost of the Gospels please feel free to do so.

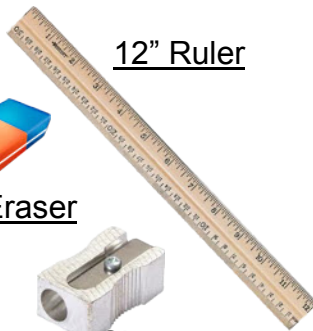

**£5 per pack**
